POSTGRADUATE DIPLOMA IN LEARNING DESIGN AND TECHNOLOGY

Mode: **ONLINE**

Overview

The Postgraduate Diploma in Learning Design and Technology (PGDLD&T) is an academically enriching voyage aimed at nurturing astute professionals who will excel in crafting, implementing, and deploying innovative learning and performance solutions in the digital realm. Upon completion of this program, learners will have honed the following competencies:

- . Apply pedagogical design principles and cutting-edge learning theories to proficiently develop, execute, and deploy effective learning and performance solutions.
- . Undertake rigorous investigations into technology-enhanced strategies, harnessing a diverse array of information sources to bolster the delivery of impactful learning experiences.
- . Plan and methodically assess technology-facilitated learning endeavors, leveraging foundational principles, theories, and empirical research to fuel continuous enhancement.
- . Meticulously select and adeptly utilize a plethora of digital technologies and methodologies to optimize learning and performance solutions.
- . Champion the transformation of online pedagogy through strategic leadership grounded in unwavering professional values.

Career Prospects:

Graduates of this programme can pursue diverse and rewarding career paths, including but not limited to:

- . Instructional Designer
- . E-Learning Developer
- . Educational Technology Specialist
- . Learning Management System (LMS) Administrator
- . Digital Curriculum Developer
- . EdTech Consultant
